Dear *Bill* Mr. Dircks:

Thank you for your nomination of Mr. Lincoln Clark and Mr. Frank Fogerty for consideration as additional INPO Accrediting Board members. They are excellent choices, and we will be contacting them both, to request that they serve as Board members.

I would like to take this opportunity to comment on the valuable contributions to the proceedings of the Board being made by Dr. Forrest Remick and Dr. Gordon Robinson. They have been of great assistance to the Board through the crucial formative stages of this important industry program.

Thank you again for giving this matter early attention.

Sincerely,

Dear Mr. Clark:

This is an invitation to serve on the Accrediting Board of the Institute of Nuclear Power Operations, the decision-making body that awards accreditation to nuclear utility personnel training programs. Your name has been put forward by Mr. William J. Dircks, Executive Director for Operations, U.S. Nuclear Regulatory Commission.

Details of this important industry program are provided in the enclosed executive summary and Accrediting Board charter. In anticipation of an increasing accreditation workload, we are in the process of increasing the number of qualified persons on whom we might call to constitute Accrediting Board panels. If you accept our invitation, you would serve as an alternate to Dr. Forrest Remick, who currently serves as the member recommended by the Nuclear Regulatory Commission.

Board meetings are held periodically for one or two days in Atlanta. Your attendance would be required approximately four times a year. An honorarium of \$600 is granted for each day you are preparing for or attending a Board meeting. All travel expenses are reimbursed.

If you have any questions, please contact me directly or call Ken Strahm, Vice President and Director, Training and Education Division (404/980-3213).

Sincerely,

Zack T. Pate

Dear Dr. Pate:

It is a pleasure for me to accept your invitation of March 29th to serve on the Accrediting Board of the Institute of Nuclear Power Operations.

I look forward to participating in this important program and hope to be able to contribute to its successful development.

Mr. Walt Coakley has been very helpful in providing background material. If there is further information pertaining to the accreditation activity in general that should be reviewed prior to attending meetings, I shall be happy to study it. At Mr. Coakley's request I am furnishing a copy of my resume and my home telephone number, which is 617/256-5763.

Sincerely,
