Arkansas Power & Light Company
ATTN: Gene Campbell, Vice President -
Nuclear Operations
P.O. Box 551
Little Rock, Arkansas 72203

Gentlemen:

This refers to the inspection conducted by Messrs. W. D. Johnson and C. C. Harbuck of this office during the period December 1, 1987, through January 19, 1988, of activities authorized by NRC Operating Licenses DPR-51 and NPF-6 for Arkansas Nuclear One, Units 1 and 2, and to the discussion of our findings with Mr. S. M. Quennoz and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included operational safety verification, maintenance, surveillance, NRC Bulletin followup, followup on previously identified items, and followup on Licensee Event Reports (LERs). Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the NRC inspectors. The inspection findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations were identified.

During this inspection, it was found that certain of your activities appeared to deviate from commitments made to the NRC. These items and reference to the commitments are identified in the enclosed Notice of Deviation. You are requested to respond to this deviation in writing. Your response should be based on the specifics contained in the Notice of Deviation enclosed with this letter.

The response directed by this letter and the accompanying Notice is not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
