Gentlemen:

Subject: RESPONSE TO NRC BULLETIN 88-01  
DEFECTS IN WESTINGHOUSE CIRCUIT BREAKERS

This will acknowledge receipt of the subject NRC Bulletin by the Supply System for our two deferred projects, WNP-1 and WNP-3.

Because of the long-term deferred status of these two projects, and the limited resources being applied, our response to this Bulletin is limited to this acknowledgement. Actions requested by the Bulletin will be deferred until after restart of construction (currently not scheduled).

Should you have any questions, please contact me.

Very truly yours,

G. C. Sorensen, Manager  
Regulatory Programs
