

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

DEC 15 1978

Mr. Dixon Hoyle, Director
Office of Program Implementation
Bureau of Oceans and International
Environmental and Scientific Affairs
U.S. Department of State
Washington, D.C. 20520

Dear Mr. Hoyle:

Enclosed please find an application from Mitsui and Company (USA) for a license to export 26,902 kilograms uranium enriched to 756 kilograms uranium-235 for use as reload fuel for the Hamaoka Unit II reactor in Japan.

Before taking action on this license application, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the issuance of the requested license would be inimical to the interests of the United States, including the common defense and security, and whether the proposed export meets the applicable criteria in the Atomic Energy Act as amended by the Nuclear Nonproliferation Act of 1978.

Sincerely,

A handwritten signature in dark ink, reading "Gerald G. Oplinger", is written over the typed name.

Gerald G. Oplinger, Assistant Director
Export/Import and International
Safeguards
Office of International Programs
