

## UNITED STATES NUCLEAR REGULATORY COMMISSION WASHINGTON, D. C. 20555

TEC 1 5 1978

Mr. Dixon Hoyle, Director Office of Program Implementation Bureau of Oceans and International Environmental and Scientific Affairs U.S. Department of State Washington, D.C. 20520

Dear Mr. Hoyle:

Enclosed please find an application from Mitsui and Company (USA) for a license to export 26,902 kilograms uranium enriched to 756 kilograms uranium-235 for use as reload fuel for the Hamaoka Unit II reactor in Japan.

Before taking action on this license application, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the issuance of the requested license would be inimical to the interests of the United States, including the common defense and security, and whether the proposed export meets the applicable criteria in the Atomic Energy Act as amended by the Nuclear Nonproliferation Act of 1978.

Sincerely,

Gerald G. Oplinger, Assistant Director Export/Import and International
