Dear Sir,

Please amend the referenced license for generic authorization for Ohmart gages. The items to be amended are 6, 7, 8, and 9.

Item 6 should be amended to read, "See Item 9."

Item 7 should be amended to read, "Sealed Sources."

Item 8 should be amended to read, "See Item 9."

Item 9 should be amended to read, "For possession and use in Ohmart devices which have been evaluated and approved for licensing purposes and authorized for distribution under a license issued by the Nuclear Regulatory Commission or an agreement state."

Our present level gage has become inoperative and due to obsolescence, repair parts are no longer available. Therefore, it would be greatly appreciated if amending of the license could be expedited so the Ohmart devices may be procured and installed to enable our system to return to normal operation.

Enclosed is a \$60.00 check to cover the fee for amending the license.
