Subject: Criticality monitor exemption for Duke plants

Larry, Roger:

Roger and I had an impromptu conference call with Mike Kittland of Catawba. We tried to patch Larry in but he was not in his office then.

Must say that I am rather confused after the conference call as to what direction we are heading. Are we continuing to review Duke's application for exemption for the 3 Duke plants? Do we now have sufficient material for your review? How about NMSS's concern?

Please clarify. Thanks.
