Training Program Accreditation

Dear Sir:

Florida Power Corporation (FPC) has received accreditation for its training program from the National Academy for Nuclear Training. This accreditation is based upon evaluations by the National Academy for Nuclear Training of FPC's systems approach to training. Therefore, FPC is hereby notifying the Nuclear Regulatory Commission (NRC) of FPC's intent to exercise the options identified in 10 CFR 55 as available to those with Commission approved training programs developed by using a systems approach to training. As a minimum these options include changes in documentation required for applications as described in 10 CFR 55.31(a)(4) and changes in applicable requalification program requirements described in 10 CFR 55.59(c). NRC review of outstanding Training Program changes should be discontinued.

Sincerely,

K.R. Wilson, Manager
Nuclear Licensing
