

UNITED STATES
NUCLEAR REGULATORY COMMISSION
 REGION I
 475 ALLENDALE ROAD
 KING OF PRUSSIA, PENNSYLVANIA 19406-1415

MEMORANDUM TO:

Hubert J. Miller,
 Regional Administrator, RI

Roy P. Zimmerman
 Associate Director for Projects
 Office of Nuclear Reactor Regulation

FROM:

Charles W. Hehl, Director
 Division of Reactor Projects, RI

John A. Zwolinski, Deputy Director
 Division of Reactor Projects I/II
 Office of Nuclear Reactor Regulation

SUBJECT:

MAINE YANKEE RESTART ACTION PLAN

Attached is the Maine Yankee Restart Action Plan (RAP) for your review and approval in accordance with NRC Inspection Manual Chapter 0350, "Staff Guidelines for Restart Approval." The plan is based on the MC 0350 process, however in accordance with MC 0350-05.01 some issues were determined to be not applicable to the restart of Maine Yankee and were accordingly omitted. This action plan will be maintained and updated by the NRC's Maine Yankee Assessment Panel (MYAP). The MYAP intends to make minor revisions without seeking additional approval; however, if a significant revision is made to the plan, you will be notified and requested to approve the revision.

The RAP contains a list of issues that the NRC will inspect to assess the licensee's compliance with applicable regulatory requirements and conformance with the facility design and licensing bases. Inspection of the items listed will provide the NRC with a base of information necessary to judge whether Maine Yankee has made sufficient progress to support return to operation. Emergent issues arising during the implementation of the plan may result in issues being added. In such cases, the NRC's Maine Yankee Assessment Panel (MYAP) will revise this plan as appropriate.

The MYAP, in its capacity as the Maine Yankee Restart Panel, is responsible for the implementation of the approved Maine Yankee Restart Action Plan. The implementation of this plan will be closely coordinated with the State of Maine. You will be updated periodically on the status of restart readiness.
