Omaha Public Power District
ATTN: R. L. Andrews, Division Manager-
Nuclear Production
1623 Harney Street
Omaha, Nebraska 68102

Gentlemen:

This refers to the inspection conducted by Mr. James A. F. Kelly of this office during the period November 16-20, 1987, of activities authorized by NRC Operating License DPR-40 for the Fort Calhoun Station, and to the discussion of our findings with you and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included security plan and implementing procedures; management effectiveness; security organization; records and reports; locks, keys, and combinations; physical barriers - vital area; compensatory measures; lighting; access control - packages and vehicles; detection aids - vital area; communications; and personnel training and qualification. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the NRC inspector. The inspection findings are documented in the enclosed inspection report.

During this inspection, it was found that certain of your activities were in violation of NRC requirements. Consequently, you are required to respond to these violations, in writing, in accordance with the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter.

We have also examined actions you have taken with regard to a previously identified inspection finding. The status of this item is identified in paragraph 3 of the enclosed report.

A concern about the safety-safeguards interface as it applies to compensatory measures is discussed in paragraph 14, and you are requested to respond, in writing, to this concern within 30 days of the receipt of this letter.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR Part 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the material, with the exception of the report cover page which is an inspection summary, will not be placed in the Public Document Room.
