55396-MNSS Docket Material

Gentlemen:

Please find enclosed five (5) copies of Revision 1 to the AlChemIE physical security plan for AlChemIE Facility-2, Oliver Springs and five (5) copies of the security plan for the shipment of classified material and equipment from the Gas Centrifuge Enrichment Plant, Piketon, Ohio, to AlChemIE facilities in Oliver Springs and Oak Ridge, Tennessee. Revision 1 to both of these plans incorporate NRC comments received on February 24, 1988.

In that the safeguards requirements have not been finalized between NRC, the Department of Energy and AlChemIE, Section 19.0, Nonproliferation Controls, has been omitted. It is our intent to finalize Section 19 by April 8, 1988.

In accordance with 10CFR2.790(d) both security plans are submitted as proprietary. Should you have any questions please contact Mr. W. A. Pfeifer at AlChemIE, Inc.

Sincerely,

ALCHEMIE, INC.
