OCT 31 1978

Mr. Dixon Hoyle, Director  
Office of Program Implementation  
Bureau of Oceans and International  
Environmental and Scientific Affairs  
U.S. Department of State  
Washington, D.C. 20520

Dear Mr. Hoyle:

Enclosed please find an application from Mitsubishi International Corporation for a license to export 16,341 kilograms uranium enriched to 3.33% Uranium-235 for use as reload fuel for the Ikata nuclear power plant Unit No. 1 in Japan.

Before taking action on this license application, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the issuance of the requested license would be inimical to the interests of the United States, including the common defense and security, and whether the proposed export meets the applicable criteria in the Atomic Energy Act as amended by the Nuclear Nonproliferation Act of 1978.

Sincerely,

Gerald G. Oplinger, Assistant Director  
Export/Import and International  
Safeguards  
Office of International Programs

Enclosure:  
Application dated 9/29/78
