Dear Mr. Davis,

Attached is a completed NRC form No. 314 as it relates to our wishes to terminate our NRC licence No. 20-11915-02. In accordance with your communication dated 26 June 1987, docket no. 030-12500, we are attaching the General Dynamics shipping notice #70515 and appropriate receiving documents from Amersham/Tech Ops concerning the strontium-90 and cobalt-60 sources associated with calibration instruments sent to them for disposal.

We hope this completes the process of cancelling our licences with the NRC. If applicable, please send the appropriate notification to that affect as soon as possible.

Thank you for your cooperation in this matter. Please contact us if we can be of any further assistance.

Sincerely yours,

Edward J. Willwerth
Environmental Resources Manager
