NOV 21 1978

Docket Nos: 50-275
and 50-323 A

MEMORANDUM FOR: John F. Stolz, Chief, Light Water Reactors Branch No. 1, Division of Project Management
FROM: Dennis P. Allison, Project Manager, Light Water Reactors Branch No. 1, Division of Project Management
SUBJECT: RECORD OF PG&E CONTACTS WITH NRC STAFF - DIABLO CANYON NUCLEAR POWER PLANT

As discussed in my memoranda of January 27, 1978, March 15, 1978 and October 16, 1978, PG&E was stationing a licensing engineer in Bethesda much of the time during the first half of 1978. He contacted the NRC staff frequently in order to speed the exchange of information. PG&E's log for contacts from April 19, 1978 through May 5, 1978 is provided in the enclosure.

D. P. Allison

Wednesday, April 19, 1978

Met with Dennis Allison to discuss Amendments 58 & 60 and the SER. Also delivered to him advance copies of letters dealing with hose connections at the raw water reservoir and seismic screen instrument qualification. Also gave him copies of a site photo requested by John Greves and a letter from Westinghouse to PG&E on decoupling.

Delivered copies of the above variously to John Knox, Pui Ying Chen, PTKuo, and John Greves.

J. Williamson

Thursday April 20, 1978

Discussed Amendment 4B with Dennis Allison. Arranged telephone call between John Knox and Tom Crawford to discuss ~~seismic~~ qualification of the seismic scram system.

Participated in conference call between Israel, Knox, and Hearn, and Gormly, Lavery, and Crawford to discuss non-category I piping in the containment and control room indications for cold shutdown.

Later discussed EER status with Allison.

J. Williamson

Friday, April 21, 1978

Met with Dennis Allison to discuss various topics, including the SER, the Stello letters on reactor seal ring and RCS supports, the Western LNG Project DES issued by the FERC, and some geologic work being performed by CDME.

Met with Bill Millstead on the reactor cavity seal ring, Jack Boegli on Radiological Tech Specs, Jerry Hollman on fire protection, John Knox on qualification of the seismic scram system, and Lea Sihwell on the planned ~~SEP~~ site visit.

No meeting today

Tuesday, May 2, 1978

Met with Dennis Allison to determine progress of SER. He stated that Mr. Shackelford would be notified by Mr. Case, ^{that there} would be a delay in its release beyond May 8. Questioned Dennis Allison as to how our submittals after this date would effect closing of SER items. He stated that changes and close outs can be made last minute but his goal at this time was not to close out items, but to get the SER published as soon as possible. I informed Dennis Allison that several submittals would be made this week.

Dennis Allison informed me of developments with State Mines and Geology. Thought there might be a press release.

R. T. Kalmenson

Wednesday, May 3, 1978

Saw Dennis Allison to pass to him the May 2 submittal. He suggested that I discuss the submittal with the various reviewers. Saw John Knox on Safety Related Cable (Polyethylene) and Splines, Connectors and Terminal Blocks; Pete Hraun on Spaw Hose Sections; Bill Milstead on Bactor Cavity Annulus Seal Ring; Sandy Fernald on Borator - Control Room Indication; and John Creeves on slope above raw water storage reservoir (sight photo showing gradual slope).

Spoke with Carl Stopp about developments regarding State of Calif. He stated that no letter had been received. Spoke with Mr. Fourtelle. He stated that he would notify board of NRC site visit to investigate state contention.

RJ Kelmer

Thursday, May 4, 1978

Delivered to Dennis Allison advance copies of the the Degraded Grid submitted of Amendment 63 and the IC environmental qualification table. Spoke briefly on calls from SLO Tribune on postulated faults and site visit. Gave John Knox a copy of each submitted. Later discussed with John Knox the Degraded Grid material and came to an understanding of qualification of IC bus equipment operating between 2800 and 3600V, or requirement of second level protection to trips at 3600V. John Knox request that the talk on the environmental qualification table be postponed until Friday.

RJ Klemmer

Friday, May 5, 1978

Received environmental qualifications table with John Knot. He had questions which were relayed back to the general office for answers. John Knot thought he might have to audit qualifications.

Spoke with O'Allison. He restated probability of a mid May SER and a June 9 or 14 ACRS sub-committee. Ultimate delay will depend upon what becomes critical path, the open items or future ACRS meetings.

RT Kelman
