Docket No. 50-267

SUBJECT: Performance Enhancement
Program Update

REFERENCE: NRC letter Miraglia
to Williams dated
04/06/87 (G-87107)

Dear Sir:

Enclosure 2 of the above Reference specifies that Public Service Company will provide status reports approximately every six months on the Nuclear Performance Enhancement Program (PEP). As part of PSC's response to the most recent SALP report, a verbal presentation on PEP was made to the NRC on August 4, 1987. Mr. Robert Martin, Regional Administrator, Region IV indicated at that meeting that the interval between future status reports may be lengthened.

Recent discussions between PSC and the NRC have resulted in this PSC request to have PEP status reporting changed to annually. The next report would be submitted to the NRC on or before August 31, 1988.

PSC requests NRC concurrence on this change of reporting frequency. Should you have any questions on this issue, please contact Mr. M. Holmes at (303) 480-6960 for information.

Very truly yours,

H. L. Brey
Manager, Nuclear Licensing
and Fuels Division
