Subject: Yankee Nuclear Power Station Procedure Generation Package

Dear Mr. Fairtile:

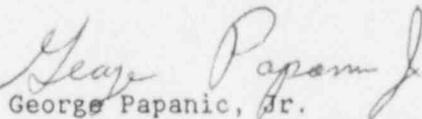

In Reference (d), the USNRC staff agreed that the Procedure Generation Package (PGP) for Yankee Nuclear Power Station should be approved prior to the implementation of Yankee's revised Emergency Operating Procedures (EOPs). The EOPs are presently scheduled for implementation prior to the startup of Cycle 20 operation.

Yankee's PGP is attached, and we request that your review and approval be completed by May 15, 1988 in order to support the above schedule.

We trust that you will find this submittal satisfactory. However, if you have any questions please contact us.

Very truly yours,

YANKEE ATOMIC ELECTRIC COMPANY
