Gentlemen:

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION CONCERNING A MATERIAL LICENSE
APPLICATION (REFERENCE: 220154, 030-29950)

This refers to your application dated April 1, 1987, for a license to replace License No. 52-19738-01 which has expired. The following additional information is needed in support of your request:

1. For each hospital or clinic which you propose to use the Strontium 90 applicator, we need a copy of a letter signed by the Management (Administrator) of that institution which authorizes you to use the applicator, maintain radiation safety control and upon completion of the treatment return the device to your facilities.
2. In addition, since Ryder Memorial Hospital already has an NRC License, it will be necessary for their license to be amended to include your name as authorized user of a Strontium 90 applicator. Please contact Mr. Saturnino Pena-Flores concerning this amendment.

Our review of your application will continue upon receipt of the above information. Please provide two copies of your reply and reference Mail Control Number 220154.

If we do not receive a reply from you within thirty (30) calendar days from the date of this letter, we shall assume that you do not wish to pursue your application.

If either you or Mr. Saturnino Pena-Flores should have any questions, do not hesitate to contact me at (404) 331-5565.

Sincerely,
