NRC Docket No. 50-341
NRC License No. NPF-43
- 2) NRC Bulletin No. 88-01: Defects in
Westinghouse Circuit Breakers

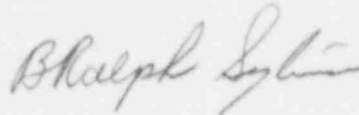

Subject: Response to NRC Bulletin No. 88-01

In response to the NRC Bulletin No. 88-01 (Reference 2) Detroit Edison Company hereby provides the information required regarding the subject circuit breakers. Fermi 2 does not utilize Westinghouse circuit breakers referenced in this bulletin. In addition, the Westinghouse switchgear, which normally use such circuit breakers, are on our Restricted Engineered Components List for "not to be used at Fermi 2".

Since the bulletin addresses component failure specific to a single manufacturer not utilized at Fermi 2, no further action is required.

If you have any questions, please contact Mr. G. S. Shukla at (313) 586-4270.

Sincerely,

cc: Mr. A. E. Davis
Mr. R. C. Knop
Mr. T. R. Quay
