Gentlemen:

Our records reflect that the licenses listed below, authorizing the export of plutonium, have been issued to you. These licenses currently contain a condition, number 9, which reads: "The plutonium authorized for export by this license shall not be transported by air."

This is to advise you that condition number 9 is revised to read as follows:

"Shipments of plutonium by air, other than plutonium contained in a medical device designed for individual human application may only be made in packages the design of which the NRC has specifically approved for transport of plutonium by air."
