Docket No. 50-537

File: 05.10

November 14, 1978

Mr. Roger S. Boyd, Director
Division of Project Management
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Boyd:

POTENTIAL INDUSTRIAL DEVELOPMENT ADJACENT TO CRBRP SITE

The CRBRP Project has recently become aware of potential additional industrial development in the Clinch River Consolidated Industrial Park (CRCIP). The location of this area is shown in Figure 2.2-2 of the PSAR (enclosed). Present discussions involve the sale of U. S. Government-owned land (presently in the custody of the TVA) in the CRCIP to the City of Oak Ridge for ultimate use by an undisclosed company to engage in development and manufacturing activities in support of gas centrifuge separations programs.

The Project has reviewed the information supplied to date and foresees no impact from this development upon the safe operations of CRBRP. The Project will continue to keep the NRC staff informed of developments on this proposed project.

Sincerely,

Raymond L. Copeland
Acting Assistant Director
for Public Safety
