Gentlemen:

This is to confirm arrangements made with you during telephone conversations with Region IV staff on January 19, 1988, to reschedule an Enforcement Conference originally scheduled for January 20, 1988 at 8:30 a.m. The Enforcement Conference, which was postponed per your request because of adverse weather conditions, will be held in the Region IV office on January 28, 1988 at 8:30 a.m.

The purpose of the Enforcement Conference is to discuss apparent violations regarding security matters as documented in NRC Inspection Reports 50-298/87-27 and 50-298/87-32, and an apparent violation regarding inadequate design review of the drywell exhaust inboard isolation bypass valve, as documented in NRC Inspection Report 50-298/87-31. The referenced inspection reports were forwarded to you under separate cover. The meeting agenda remains as proposed in our January 6, 1988 letter to you.

Should you have any questions concerning these arrangements, we will be pleased to discuss them with you.

Sincerely,

Original Signed By  
L. J. Callan

L. J. Callan, Director  
Division of Reactor Projects
