799 Roosevelt Rd.
Glen Ellyn, Illinois 60137

Dear Mr. Madera:

In support of additional information regarding amendment #06 to our byproduct material license #34-11202-02, enclosed please find the close-out survey performed of our old nuclear medicine suite. There was no evidence of any radioactive contamination and we therefore request to release this area to unrestricted use.

Thank you for your attention to this matter.

Sincerely,

John F. Bodie, M.D.

A hand-drawn floor plan of a room. The room is roughly rectangular. On the left wall, there is a small square object labeled 'D' on a stand. In the center of the room, there is a large circle labeled 'A' with a rectangular object leaning against it. On the right wall, there is a large rectangular area labeled 'E' and a small square object below it. At the bottom of the room, there is a long rectangular area containing four small circles, and a small rectangular object to its right. On the far right, there is a small square object labeled 'F' and a larger rectangular area labeled 'B' below it. The drawing is simple and appears to be a sketch.

DRAWING NOT
TO SCALE.
