50-301/97307(OL)

Dear Mr. Patulski:

On May 14, 1997, the NRC completed initial operator licensing retake examinations at your Point Beach Nuclear Plant, Units 1 and 2, and the license applicant's performance evaluations were finalized on May 16, 1997. The enclosed report presents the results of that examination.

Operational retake examinations were administered to two license applicants at the Reactor Operator (RO) level. Both license applicants passed their respective retake examinations and were issued RO licenses to operate your Point Beach facility.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures this letter will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this examination.

Sincerely,

/s/ J. A. Grobe

John A. Grobe, Acting Director
