Larry,

Thanks for reaching out. Attached are the four files that I'm trying to get to the Staff and to the ACRS Digital I&C Subcommittee:

1. ML20106E873 - Draft BTP 7-19, Revision 8 to Support ACRS Meeting on June 2, 2020_NAE Comments

This file has all of my comments embedded at specific points in the BTP text where I am recommending changes. Comments are color coded as indicated in the file header.

2. NAE Comments 2020-05-26 on BTP 7-19 Draft Version for use with ACRS at meeting June 2 2020

This file summarizes my key comments from File 1.

3. CCF Criteria Table

This file provides a two page table that summarizes the key guidance within the BTP. I strongly recommend this type of table be added to the BTP, because the current 41 pages are highly repetitive and very difficult to follow.

4. CCF Criteria Table with Annotations for NAE - Staff differences

File 3 includes my positions on the key BTP guidance for CCF. This file annotates how my positions differ from the Staff's positions. This reiterates and summarizes my comments in Files 1 and 2; it should help to more easily understand those comments.

I hope this is helpful. Thanks for your patience.

Ken
