Docket Nos. 50-352 and 50-353

Dear Dr. Murley:

Enclosed for filing with the Commission is Amendment No. 89 to the License Application of Philadelphia Electric Company in the above-captioned matter. This Amendment revises the Fire Protection Evaluation Report (Revision 10) by making various changes to accurately reflect Limerick systems, including modifications to the facility and provides a partial description of Unit 2 fire protection features. Revision 10 also serves to update the Report to assure the information for Limerick Unit 1 is current.

This filing consists of an original and 10 copies of Amendment No. 89 to the License Application, and 11 copies of Revision 10 to the Fire Protection Evaluation Report.

Very truly yours,

Eugene J. Bradley
