Gentlemen:

This refers to the inspection conducted by Mr. J. A. F. Kelly of this office during the period February 16-19, 1988, of activities authorized by NRC Operating License NPF-42 for the Wolf Creek Generating Station, and to the discussion of our findings with Mr. F. Rhodes and other members of your staff at the conclusion of the inspection.

The inspection reviewed certain areas of your physical security program. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the NRC inspector. The areas inspected and inspection findings are documented in the enclosed inspection report.

During this inspection, it was found that certain of your activities were in violation of NRC requirements. Consequently, you are required to respond to this violation, in writing, in accordance with the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph 2 of the enclosed report.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR Part 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the material with the exception of the report cover page, which is an inspection summary, will not be placed in the Public Document Room.
