OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

Dear Mr. Rich,

At a regularly scheduled meeting of our organization we voted to support your activity of monitoring the Florida Power and Light nuclear power plant on Hutchinson Island. We expect to have representation at the March 29, 1988 meeting in Jensen Beach.

Even though nuclear power is a very complicated business we feel that more public input should be allowed in decision making processes. We applaud your interest and will look to find talent to help you in the future. We are rightly suspicious of high technologies managed by technologists who have already damaged our environment in all manner of specialized fields and do not have answers to the problems they create.

Sincerely,

Joseph C. Filonowicz 3/21/88
