

January 27, 1988

Mr. Charles McCarthy
 Vice President and Site Manager
 Southern California Edison Company
 P. O. Box 128
 San Clemente, California 92672

Dear Mr. McCarthy:

Subject: Evaluation of Requalification Program, San Onofre Units 2 and 3

The purpose of this letter is to forward the enclosed requalification program material and to set a date for a management meeting of SCE and NRC personnel. This was discussed by Mr. P. Morrill of my staff with Mr. D. Mette of your staff on January 21, 1988.

The enclosed material contains tests, worksheets, guidance, requirements and procedures that were used for the H. B. Robinson requalification program evaluation. The requirements and procedures are especially important, in that we intend to use the same methodology and criteria at your facility. My staff will be working closely with your staff to explain the program, resolve problems, and administer the actual examinations.

Based on discussions with Mr. Mette and Mr. P. Morrill on January 21-22, 1988, we propose to meet with yourself and appropriate management representatives from Operations and Training on February 25, 1988 at the SONGS 2/3 site. Mr. Morrill will be in touch with your staff to confirm the time and location.

Should you have any questions please contact either myself (415-943-3868) or Mr. J. Elin (415-943-3728).

Sincerely,

/S/

Robert J. Pate, Chief
 Reactor Safety Branch
