U.S. Nuclear Regulatory Commission  
Attention: Mr. Marvin R. Peterson  
Assistant Director for International Security -  
International Program  
Office of Governmental and Public Affairs  
Washington, DC 20555

License No. XSNM-02161

Dear Mr. Peterson:

Advanced Nuclear Fuels Corporation requests that the reference license for export of nuclear fuels to Euratom nations be amended as described below.

Tihange - Belgium

Increase the amount authorized for shipment to Tihange by 1050 kgs of U-235 contained in 26,540 kgs of total uranium. This increase is to supply customer requirements for reload XN-9. The total amount authorized for shipment to Tihange then becomes 4,640 kgs U-235 contained in 127,232 kgs total uranium.

Blayais 1, 2, 3 and 4 - France

Increase the amount authorized for shipment to EdF by 690 kgs U-235 contained in 20,900 kgs of total uranium. This increase is to supply customer requirements for reload XN-13. The total amount authorized for shipment to EdF then becomes 7,005 kgs U-235 contained in 195,945 kgs of total uranium.

These increments will bring the total authorized by the reference license to 29,427 kgs U-235 contained in 830,441 kgs of total uranium.
