Dear Mr. Mendonca:

Georgia Tech is hereby requesting a change to the above referenced NRC Operating license to a Possession-Only-License status.

This P-O-L request is based on the decision taken by Georgia Tech's Administration to permanently cease the operation of our nuclear research reactor. The technical support of our request is based on the current totally de-fueled condition of the GTRR.

We would appreciate your prompt attention to our subject request and if you need additional information to process this request, please do not hesitate to contact me at (404)894-3370.

Sincerely,

J. Narl Davidson
