

980 Ringwood Dr.  
Rock Hill, S.C. 29730

Mr. Alan S. Rosenthal, Chairman  
Atomic Safety & Licensing Board  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Rosenthal,

I would like to express my support for the licensing of the Melrose Nuclear station. As a resident of the general area in which the Melrose Nuclear Station is located, I believe that the licensing of this unit will be in the best interest of this area and the country.

I believe that the safety of the ice condenser containment plants has been adequately reviewed with the TVA plants and Melrose should not be delayed any longer.

Yours truly,
