MEDICAL APPROVAL (MA)

Enclosed for your information is a letter from the State of Illinois' radiation control program to the Amersham Corporation. This letter serves as an approval for Amersham to distribute FDA approved reagent kit Ceretec™ (NDA#19-829).

We request that you add this reagent kit to your regulations under groups 2 and 3, so that group medical licensees will not require a specific amendment in order to use this product.

We expect that this new product will soon be added to the FDA's list of Approved Radiopharmaceutical Drug Products.
