DOCKET NOS. 50-445 AND 50-446 TEXAS UTILITIES GENERATING COMPANY, ET AL. NOTICE OF ISSUANCE OF AMENDMENTS TO CONSTRUCTION PERMITS

Notice is hereby given that the U. S. Nuclear Regulatory Commission (the Commission) has issued Amendments No. 1 to Construction Permits Nos. CPPR-126 and CPPR-127 issued to Texas Utilities Generating Company, et al. for construction of the Comanche Peak Steam Electric Station. Unit Nos. 1 and 2, located at the permittee's site in Somervell County, Texas.

The amendments modify the construction permits to remove the requirement that a chlorine minimization study be performed and the results submitted to the Commission prior to docketing of the Environmental Report, Operating License Stage.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended and the Commission's rules and regulations. Prior public notice of these amendments is not required since the amendments do not involve a significant hazards consideration.

The Commission has prepared an environmental impact appraisal for the amendment to the construction permits and has concluded that an environmental impact statement for this particular action is not warranted because there will be no significant environmental impact attributable to this action.

For further details with respect to this action, see (1) the application for amendments dated June 30, 1978, (2) Amendments No. 1 to Construction Permit Nos. CPPR-126 and CPPR-127, and (3) the Commission's Environmental Impact Appraisal. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington, D. C., and in the Somervell County Public Library, On the Square, Glen Rose, Texas. A copy of items (2) and (3) may be obtained upon request addressed to the U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Director, Division of Site Safety and Environmental Analysis.

Dated at Bethesda, Maryland, this 4

day of / Camber 1978.

FOR THE NUCLEAR REGULATORY COMMISSION

Ronald L. Ballard, Chief

Environmental Projects Branch No. 1

Division of Site Safety and Environmental Analysis
