John Glenn
Senate Office Building
Washington, D.C. 20510

Dear Mr. Glenn:

I ask that you do all you can to stop the building of the nuclear power plant at Berlin Heights as well as the high voltage transmission lines. No one wants them across or near their property, and quite understandably. Why doesn't Ohio join Maine, California, Iowa, New York, and Wisconsin in a moratorium on nuclear power plants?

Yours truly,

Widillo Taylor

Dear Senator Glenn: #3 Oct. 30, 1978
In my opinion, Congress
should declare a moratorium on the
construction of more nuclear power
plants - at least until our most
expert and truthful scientists can
assure all of us greater safety
than they can now. This is the
only way to protect the public
from a possible nuclear disaster.
