Mr. C. J. Heltemes, Jr., Branch Chief
Standardization Branch
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Heltemes:

In October, 1978, Combustion Engineering, Inc. submitted the tendering draft of CESSAR-FSAR. Included in the submittal was Appendix A, which provides the NRC with Combustion Engineering's position on those additional licensing matters issued after the regulatory requirements cut-off date in August, 1974. Items under Categories 1, 2 and 3 were addressed.

Herewith enclosed are fifteen (15) copies of Amendment 1 to Appendix A. This Amendment addresses all applicable Category 4 matters and modifies, or adds, several position statements within Categories 1, 2 and 3. The enclosed package should complete the information required for the NRC to review the CESSAR-FSAR.

Very truly yours,

COMBUSTION ENGINEERING, INC.
