Michael A. Lamastra  
Radioisotope Licensing Branch  
Division of Fuel Cycle and Material Safety  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Lamastra:

Please amend license #35-17087-01 to extend to Dan Mitchell, Jr., M.D., the authorization to use radiopharmaceuticals and sealed sources for therapeutic procedures at this institution. Dr. Mitchell is presently authorized to use these materials on license #35-13921-02, and, with the addition to our associated affiliate staff of Max Kubik, M.S., as a medical health physicist, we believe this is an appropriate time to expand our services.

Enclosed please find the necessary forms and the \$40.00 amendment fee.

Sincerely,

Fred Long, M.D.  
Director, Nuclear Medicine Department.

John McMillan
