SUBJECT: SEQUOYAH ACCREDITATION TEAM VISIT FOLLOW-UP

I was finally able to contact and complete my follow-up with the four utility peer team members from the Sequoyah Accreditation team visit. The members were:

Bryce Shriver (VEPCO)  
Rick Zollitsch (Niagara-Mohawk)  
Herb Lapp (Commonwealth Edison)  
Steve Jones (Baltimore Gas and Electric)

Results of the follow-up

1. All four were contacted, by phone, by an INPO staff member and were read their appropriate sections of the final draft of the Report. None of the four had any problems with the draft.
2. All four stated that they still would have desired to receive a copy of the Report.
3. All four are still strong believers in the Accreditation program.
4. Only two of the four knew that Sequoyah had been awarded accreditation status. The two who did not know stated that they would have desired for INPO to provide them with this follow-up information.
