Dear Mr. Clark:

Since my letter to you of October 10, 1978, Philadelphia Electric Company has been continuing its work directed to implementing its decision to amend the present Fulton application so as to obtain an early site review by the NRC Regulatory Staff and a Partial Initial Decision by the Atomic Safety and Licensing Board.

No other changes have occurred in the status of the Fulton application since my last report to you. We shall continue to report as requested by your letter of November 26, 1975.

Very truly yours,
