CERTIFIED MAIL
RETURN RECEIPT REQUESTED

On August 3, 1978, counsel for the licensee initiated negotiations with staff counsel concerning a voluntary termination of the licenses. By letter dated August 22, 1978, staff counsel confirmed the understanding reached during that conversation and the discussion of August 17, 1978, that no action would be taken on the hearing request until the licensee decided whether to request voluntary termination of the licenses.

III

By letter dated September 6, 1978, the licensee requested that the licenses be terminated. The licensee submitted to the Office of Nuclear Material Safety and Safeguards a completed Form - 314 "Certificate of Disposition of Materials" indicating all radioactive material had been properly disposed. The licensee's facility was inspected on October 28, 1978, by representatives of the Region III, Office of Inspection and Enforcement. This inspection confirmed the proper disposal of all radioactive material and revealed no residual contamination based on independent measurements.

On November 16, 1978, the Office of Nuclear Materials Safety and Safeguards issued Amendment No. 1 to License No. 21-16793-01G and Amendment No. 3 to License No. 21-16793-02 terminating the licenses.

IV

Therefore, on the basis that the licenses have been terminated, it is hereby ordered that: this proceeding is terminated.
