MEMORANDUM TO: Edward Halman, Director
Division of Contracts, ADM

FROM: Robert B. Minogue, Director
Office of Standards Development

SUBJECT: EXTENSION OF CONTRACT NRC-01-078-011, HEALTH
EFFECTS OF LOW-LEVEL IONIZING RADIATION

Michael Parsont of my staff received a telecopy dated November 27, 1978 from David Redmond, Kinetic Research, Inc. requesting an extension on contract NRC-01-078-011.

Mr. Redmond and Mr. Parsont had discussed this subject previously and Mr. Parsont had indicated that, considering the current work load and the proximity of the holiday season, he saw no problem with an extension.

Please modify this contract to reflect a time extension from December 29, 1978 to January 19, 1979. The due date for the draft final report will be changed from December 14, 1978 to January 5, 1979, and the final report from December 29, 1978 to January 19, 1979.

This contract modification will not adversely impact any OSD scheduled activities.
