Arkansas Power & Light Company
ATTN: Mr. Gene Campbell
Vice President, Nuclear
Operations
P.O. Box 551
Little Rock, Arkansas 72203

Gentlemen:

This refers to the inspection conducted by Messrs. A. B. Earnest and J. A. F. Kelly of this office during the period December 7-11, 1987, of activities authorized by NRC Operating Licenses DPR-51 and NPF-6 for Arkansas Nuclear One, Units 1 and 2, and to the discussion of our findings with Mr. E. C. Ewing and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included compensatory measures, access control - personnel, assessment aids, detection aids - protected area, physical barriers - vital area, detection aids - vital area, security organization, security plan and implementing procedures, physical barriers - protected area, and records and reports. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the NRC inspectors. The inspection findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified, however, you are requested to respond to the matter discussed in paragraph 7 concerning the result of your evaluation of the security organization once this evaluation is complete.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph 2 of the enclosed report.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR Part 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the material, with the exception of the report cover page which is an inspection summary, will not be placed in the Public Document Room.
