DEEMED NOT REPORTABLE

Gentlemen:

Attached please find a list of deficiencies previously reported as potentially reportable under the provisions of 10CFR50.55(e). We have completed our evaluation and concluded in the event these issues had remained uncorrected, no condition adverse to the safety of plant operations would exist.

Documentation to support our conclusions is available at the CPSES site for your Inspector's review.

Very truly yours,

W. G. Council
