SAFEGUARDS INFORMATION

July 10, 1997

Mr. T. F. Plunkett  
President - Nuclear Division  
Florida Power & Light Company  
P. O. Box 14000  
Juno Beach, Florida 33408-0420

SUBJECT: OPERATIONAL SAFEGUARDS RESPONSE EVALUATION REVIEW  
(TAC NOs. M98337 & M98338)

Dear Mr. Plunkett:

On May 20-21, 1997, NRC personnel evaluated Turkey Point's physical protection program. This evaluation was a result of a Region II inspection in February 1997 that indicated that changes in site protection strategy or capability should be validated. The items of concern were similar to some identified in the 1994 Operational Safeguards Response Evaluation.

The NRC personnel were briefed on Turkey Point's modified protection strategy, toured the plant to observe paths to key equipment and responder deployment positions, conducted three table-top armed response contingency drills, and observed two actual armed response contingency drills. The briefings, observations, and drills indicated that the modified protection strategy was generally sound. The detailed validation of the site protection strategy is enclosed.

The briefings, demonstrations, and drills indicated that your implemented modifications were adequate to resolve the concerns raised during the February 1997 regional inspection. Any further modifications to these areas-of-concern, as described in the enclosure, should be reported to the NRC Regional Office staff.

This letter affects nine or fewer respondents and, therefore, it is not subject to Office of Management and Budget review under P.L. 96-511.

Enclosure contains SAFEGUARDS INFORMATION  
Upon removal of enclosure this document  
is DECONTROLLED.
