Dear Mr. Sargent:

We reviewed your letter of May 31, 1994, in which you provided the locations from which the samples, used in the solubility testing, were obtained. The samples were taken from locations at both the Bert Avenue and Harvard Avenue sites, and have relatively high concentrations of depleted uranium. The sample locations are acceptable.

If you have any questions, please contact me at 301-415-7299.

Sincerely,
