SUBJECT: Updated Safety Analysis Report (USAR) Figure Corrections

In Reference 2, Omaha Public Power District (OPPD) submitted the most recent revision of the Fort Calhoun Station USAR to the NRC. OPPD elected to reissue the USAR in its entirety because it was completely reformatted. However, a few of the figures provided in the reissued USAR were incorrect revisions due to an administrative deficiency. OPPD has taken action to prevent recurrence of this problem. It should be noted that the previous issues of the USAR contained the correct figure revisions.

Enclosed are replacement instructions and the latest revision of the affected figures for Copy Numbers 1 through 11 held by the Document Control Desk, and for Copy Numbers 12 through 15 held by other NRC personnel.

If you should have any questions, please contact me.

Sincerely,

S. K. Gambhir
Division Manager -
Engineering & Operations Support
