RE: Radioactive Material License No. 45-16657-01
American Medical Imaging Centers, P.C.

Gentlemen:

Please find enclosed two copies of our radioactive material license renewal application. Note that we have changed the name of our practice.

Also, please be advised that at the current time all nuclear medicine procedures have been suspended. However, we would like to keep the license active as in the near future we intend to resume the practice. Until such a time as the practice becomes active, all surveys, meter calibrations, linearities, and other radiation safety procedures will not be performed. Once the practice does resume activities, all procedures as stated in the license will be followed.

Also enclosed is the required \$580.00 license renewal application fee.

If you have any questions or require further clarification, please do not hesitate to contact the undersigned.

Sincerely,

ROBERT C. GARCIA, M.D.
Administrator

Dear Dr. Garcia:

This is to advise that Robert C. Garcia, M.D. is hereby approved to admit patients who have been given parenteral radioactive materials to Northern Virginia Doctors Hospital.

In addition, be advised that you will also be responsible for radiation safety matters pertaining to patients admitted as described above.

Sincerely,

NORTHERN VIRGINIA
DOCTORS HOSPITAL

NOTICE TO LICENSEES

Both management and involved employees of medical facilities must be aware of, and comply with all license conditions. The following actions are recommended:

1. Assure that a representative of management understands the commitments being made in the application and contained in the license as finally issued.*
2. Assure that existing and new employees are instructed in and are familiar with all applicable conditions of the license, including the details of applicable documents, such as procedures that are incorporated by condition of the license.
3. Assure that all employees are instructed in application changes each time the license is amended.
4. Assure that copies of the current regulations and copies of the license, as well as documents incorporated into the license by reference, are posted and/or made available to employees in accordance with federal and/or state regulations.

* Upon issuance of the license, your facility will be required to comply with all statements and representations made in the application.
