Dear Mr. Mayer:

The Commission has issued the enclosed Amendments Nos. \_\_\_\_\_ and \_\_\_\_\_ to Facility Operating Licenses Nos. DPR-42 and DPR-60 for the Prairie Island Nuclear Generating Plant, Unit Nos. 1 and 2, respectively. The amendments consist of changes to the Technical Specifications in response to your application transmitted by letter dated April 24, 1981.

These amendments delete the Appendix B Technical Specifications from the operating licenses as a matter of law and include in Appendix A certain reporting requirements which were included in Appendix B.

The amendments do not involve significant new safety information of a type not considered by a previous Commission safety review of the facility. They do not involve a significant increase in the probability or consequences of an accident, do not involve a significant decrease in a safety margin, and therefore do not involve a significant hazards consideration. We have also concluded that there is reasonable assurance that the health and safety of the public will not be endangered by this action.

Copies of the Environmental Impact Appraisal and the Notice of Issuance and Negative Declaration are also enclosed.

Sincerely,

8802190043 821129
