Subject: Seabrook Plan for Massachusetts (SPMC); Page Amendment No. 2

Gentlemen:

New Hampshire Yankee (NHY) advised the Nuclear Regulatory Commission (NRC) on February 12, 1988 [Reference (c)], that plan enhancements to the SPMC resulting from ongoing training, drills and exercises would be submitted to the NRC through page amendments. Pursuant to 10CFR50.4(b)(5), this memorandum transmits nine (9) copies of Page Amendment No. 2 to the SPMC and its implementing procedures. Page Amendment No. 1 was previously submitted on February 16, 1988 [Reference (d)].

These enhancements to sections of the plan and the implementing procedures are minor in nature and do not change the concept of operation. The enclosed pages, transmitted as Page Amendment No. 2, can be broken down in the following manner. Approximately 17% of these pages represent enhancements to sections of the plan. Approximately half of these enhancements incorporate lessons learned from training, exercises and drills, and editorial changes which clarify sections of the plan. The other half of these changes reflect a clearer and more efficient delineation of responsibilities within the Massachusetts Offsite Response Organization (ORO). The remaining enclosed pages, approximately 83%, represent enhancements to the SPMC implementing procedures. These procedural changes implement the above changes to sections of the plan. The specific location of the changes have been identified by a bar on the right-hand side of the page.

1045
1/9

PDR ADOCK 05000443
F DCD

One (1) copy of the enclosed page amendments will be transmitted to each of the parties, each member of the ASLB Panel and to FEMA and the RAC. Subsequent distributions will be made to appropriate controlled distribution holders of the SPMC.

Very truly yours,

George S. Thomas
