Dear Sir:

In accordance with Sequoyah Nuclear Plant Technical Specification 6.9.1.9 for units 1 and 2, we are submitting the enclosed report of the radioactive discharges released from Sequoyah during the period of July 1, 1985 through December 31, 1985.

As discussed in the NRC Inspection Report Nos. 50-327/86-02 and 50-328/86-02 (Paragraph 6b), we will work with your staff to resolve the inspector followup item concerning radiological effluent reports. We expect the next semiannual radiological effluent report to incorporate the resolution of this matter.

In addition, the corresponding report "Radiological Impact Assessment" (prepared by TVA's Radiological Health) is also attached.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
