SUBJECT: CLOSURE OF CONFIRMATORY ACTION LETTER 1-97-C20

Dear Mr. Meisel:

On July 10, 1997, you notified the NRC of a lost cesium-137 source believed to be located at a job-site in the Bally Meade Development in Claymont, Delaware. In response to Confirmatory Action Letter (CAL) 1-97-020, dated July 11, 1997, you cordoned off the area, posted "Caution Radiation Area" signs, performed a comprehensive survey, and notified us that the source had been located. Based on your response, the NRC has found that all the commitments listed in the CAL have been met.

No further response is required regarding the CAL.

Thank you for informing us of the actions documented in your letter. These actions will be examined during a future inspection of your licensed program. Your cooperation with us is appreciated.

In accordance with 10 CFR 2.790, a copy of this letter will be placed in the NRC Public Document Room.

Sincerely,
